

SOLE/JOINT

REISSUE DECLARATION AND POWER OF ATTORNEY

As below named inventors, we hereby declare that our residence, post office address and citizenship are as stated below next to our name: that we verily believe we are the original, first and joint inventors of the subject matter which is described and claimed in U.S. Patent 5,712,155, granted January 27, 1998, and for which a reissue patent is sought on the invention entitled:

**DNA ENCODING TUMOR NECROSIS
FACTOR- α AND - β RECEPTORS**

the specification of which is attached hereto.

We have reviewed and understand the contents of the above-identified specification, including the claims; that we acknowledge our duty to disclose information of which we are aware which is material to the patentability of this application under 37 C.F.R. 1.56. We verily believe the original patent to be wholly or partially inoperative or invalid by reason of the patentees claiming less than we had a right to claim, i.e., due to our Attorney's failure to appreciate the full scope of our invention, we did not initially claim a process for producing the protein capable of binding TNF (now sought in Reissue Claims 28-31, 42-45, 56-59, 70-73 and 84-87), and we did not claim the varied scope of DNA molecules, vectors and host cells (now sought in Reissue Claims 18-27, 32-41, 46-55, 60-69 and 74-83).

We hereby claim priority benefits under Title 35, United States Code §119, §172 or §365 of any provisional application or foreign application(s) for patent or inventor's certificate listed below and have also identified on said list any foreign application for patent or inventor's certificate on this invention having a filing date before that of any foreign application on which priority is claimed:

Application Number	Country	Filing Date	Priority Claimed (yes or no)
--------------------	---------	-------------	---------------------------------

We hereby claim the benefit of Title 35, United States Code §120 of any United States application(s) listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in a listed prior United States application in the manner provided by the first paragraph of Title 35, United States Code, §112, We acknowledge our duty to disclose any information material to the patentability of this application under 37 C.F.R. 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of this application:

Application Serial No.	Filing Date	Status
07/403,241	September 5, 1989	Abandoned
07/405,370	September 11, 1989	Abandoned
07/421,417	October 13, 1989	Abandoned

08/346,555	November 29, 1994	Patented (U.S. Patent 5,712,155)

All errors corrected in this reissue application arose without any deception intention on the part of applicants.
